PROGRAM

SPEAKER

Meg Morris

La Trobe University Australia

Professor Meg E. Morris is a Physiotherapist, Implementation Scientist and world expert in exercise, physical therapies and rehabilitation for people living with Parkinson's disease and related disorders.

FACULTIES

Angelo Antonini

Neurological Clinic
Department of Neurosciences
University of Padua

Davide Ferrazzoli

Department of Neurorehabilitation,
Hospital of Vipiteno (SABES-ASDAA)

Marialuisa Gandolfi

Department of Neuroscience, Biomedicine
and Movement Sciences
University of Verona

Nicola Smania

Neurorehabilitation Unit
University Hospital of Verona

Michele Tinazzi

Department of Neuroscience, Biomedicine
and Movement Sciences
University of Verona

Daniele Volpe

Villa Margherita Kos care
Fresco Parkinson Institute Fiesole

TUESDAY 12 SEPTEMBER

Chair: D. Volpe

9.00

Epidemiology and clinical features of Parkinson's disease
A. Antonini

9.30

Nosology and classification of postural abnormalities
M. Tinazzi

10.00

Pathophysiological bases of rehabilitation in Parkinson's disease
D. Ferrazzoli

10.30

Postural abnormalities and Rehabilitation
ML. Gandolfi

11.00 Coffee Break

11.30

Balance Dysfunctions and Rehabilitation
N. Smania

12.00

Physical therapy, exercise & rehabilitation for Parkinson's disease
M. Morris

12.30

Complementary therapies for Parkinson's disease
M. Morris

13.00 Lunch

14.30

Assessment of movement disorders, gait, falls and disability
M. Morris

15.15

Non-motor symptoms and their management in Parkinson's
disease
M. Morris

16.00

Aquatic therapy in Parkinson's disease
D. Volpe

16.30

Discussion & Conclusion

INFORMATION

RATIONAL

Parkinson Disease (PD) is a chronic neurodegenerative disorder with an exponential growth in the incoming future.

In last decade there is a strong evidence on the effects of physiotherapy in promoting neuroprotection, neuroplasticity and motor learning slowing down the progression of the disease. PD is a complex disease which needs an integrated and comprehensive model of care where rehabilitation plays a crucial role with its potential disease modifying role impacting the quality of life of people with PD with their caregivers.

Indeed, it is necessary a multidisciplinary approach with an interdisciplinary team composed by different professionals on rehabilitation where the physiotherapist plays a key role. The goal of this course is to train physiotherapists with a specific expertise in rehabilitation of PD providing theoretical-practical education based on international guidelines for physiotherapy and updated scientific evidence in PD. The course will be conducted by Prof. M. Morris a worldwide opinion leader of physiotherapy in PD.

REGISTRATION:

Registration online through platform www.frescofoundation.eu

Registration closes on 5 September 2023.

COURSE FEE: € 90,00

PAYMENT:

Bank Transfer:

Fresco Parkinson Institute ONLUS
IBAN: IT86 W030 6902 9241 0000 0008 266

BIC: BCITITMM
